To
The Chairperson
Rajasthan Real Estate Regulatory Authority (RERA)
Jaipur

Sub: Regarding Integration of Rajasthan RERA data with ITMS Portal of Finance
Department

A review meeting was held by Hon'ble **Chief Minister** on __ in which the progress of ITMS was discussed and directions were issued to expedite the collation of data from all departments towards effective use of ITMS was reiterated.

For the purpose of integration of GSTIN data with the Rajasthan RERA database under the Integrated Tax Management System (ITMS), and to facilitate identification, verification and cross-analysis of taxpayers engaged in real estate activities, it is requested that API access be provided to enable consumption of the requisite data maintained by the Rajasthan Real Estate Regulatory Authority.

The proposed integration will facilitate mapping of GST registrations with RERA-registered promoters, projects and associated entities, thereby strengthening data-driven tax administration, compliance monitoring and analytical capabilities. It is requested that suitable APIs may be provided to enable access to the requisite data

The nodal officer from the Commercial Taxes Department for this project is Sh. Narendra Singh Shekhawat, Special Commissioner (BIU) (Mobile: 9413366655). The concerned officers may kindly coordinate with him for facilitating the integration process and resolving any technical or functional issues.

We would be grateful for your early intervention so that, in the next monthly revenue review meeting to be chaired by the Hon'ble Chief Minister, substantial progress on this initiative can be demonstrated.

Your cooperation in facilitating the above is requested.

(Anandhi)
Chief Commissioner,
Commercial Taxes Department, Jaipur
