To
The Director
Mines & Geology Department
Khanij Bhawan, Shastri Circle,
Udaipur

Sub: Regarding Integration of Portal of Mines & Geology Department with ITMS
Portal of Finance Department

Ref.:- Letter no. F.6()ACCT(BIU)/CCT/2025/ dated 16.04.2026

A review meeting was held by Hon'ble **Chief Minister** on — in which the progress of ITMS was discussed and directions were issued to expedite the collation of data from all departments towards effective use of ITMS was reiterated.

In pursuance of the Budget announcement and the directions of the Hon'ble Chief Minister and reference Letter No. F.6()ACCT(BIU)/CCT/2025 dated 16.04.2026 issued by this office. It is requested that the concerned officials may kindly be directed to take necessary action in this regard.

For inter-departmental integration and cross analysis purposes, it is required that either read-only access to the mining database server (DR or production server) be provided, or APIs be exposed to enable data consumption by the department.

In case an API-based framework is adopted, it is requested that a one-time data dump be shared as per the requirements specified in Annexure A. Subsequently, the same data elements outlined in Annexure A may be made available through APIs for ongoing integration.

On the same note, we confirm that portal access has been received for the following SSO IDs:

Name	Designation	Mobile	SSO
Sh. B. L. Kavaria	Dy. Commissioner (BIU)	9460578991	blkavariya.ctd
Ashwin Tiwari	Technical Team Lead	9029097008	CTD.ITMS

Through the portal, the department is currently able to access various reports and dashboards available on the mining portal. However, the available reports and dashboards do not fully meet the requirements of data integration and cross-analysis envisaged under ITMS

Your cooperation in facilitating the above is requested.

(Narendra Singh Shekhawat)
Special Commissioner-BIU
Commercial Taxes Department

22. Mapping of ERCC lease:

We have received the lease mappings for the ERCC contracts. However, upon review, we have identified that for the period 2021–2026, there are 295 contract IDs that do not have any corresponding lease mapping. If require, those finding can be provided by BIU Team.
